INTERNATIONAL POLICY COUNCIL

28.11.2023

Dear Friend,

Mainstream media, academia and the current U.S. Administration may gloss over the facts, but you and I know that America is at war. Not a shadow war. Not a proxy war.

Western values are currently under attack by those who want to buttress the Free World's enemies in the Middle East at the expense of its true ally, Israel. As a result, America's position in the region is being eroded while the values of liberty, human rights and basic decency are being trampled at home.

American troops are under attack in Iraq and Syria. In the last six weeks, the Pentagon counted 73 attacks by Iranian proxies against US forces, resulting in more than 60 casualties. Meanwhile, in the Red Sea, US Navy ships shoot down Iranian missiles and repel Iran-backed armed pirates.

American military and economic interests are under attack by the nefarious alliance involving Iran, China, Russia and North Korea.

Gatestone Institute's daily reporting and analysis bring these issues and their interconnected nature to the surface. Doing so requires clear and independent research that is unapologetic and uncompromising in its quest for the truth.

[Your contribution](#) (U.S. tax-deductible) will help produce content that exposes the truth about the dangers we face, and empower the citizens of

the West to use that knowledge to influence policy and change our countries and the world for the better.
