

**The attacks on Israel can come from anywhere.
Let Israelis know where support can come from.**

HEZBOLLAH

IRAN

ISLAMIC JIHAD

HAMAS

SYRIA

After a week in which Islamic Jihad terrorists in Gaza fired more than 450 rockets at Israel, civilians living in the Golan Heights on Tuesday had to endure rockets fired by Iranian soldiers operating out of Syria.

For the first time in years, Israel is now contending with the possibility of being attacked on multiple fronts.

Israel needs your help. The men and women of Magen David Adom, Israel's national EMS organization, have trained for this very scenario. But they must have the medical supplies, equipment, and vehicles to fully cover the North and South and ensure they can respond to every emergency — and save lives.

When attacks happen, it's your support of Magen David Adom that makes a difference to Israelis. [Make a donation today.](#)
